

Christian radio in general and K-LOVE in particular, are vitally important to me and my family. Christian radio provides me with a much-needed respite from the challenge of my daily living. K-LOVE's uplifting music and positive messages accompany me everywhere I go -- to and from the office, the grocery store, exercise class, meetings, visiting my elderly in-laws -- preparing me and supporting me to meet the everyday challenges of life. I have supported K-LOVE financially for a number of years now, because I believe in their message and want to be part of bringing that message into others' lives. One result of the proposed legislation would be the loss of many of K-LOVE's translator stations, a critical component to K-LOVE's ability to reach listeners just like me. Loss of translator stations could mean that we would be left with no alternatives to secular programming too much of which, unfortunately, is very negative, mean-spirited, and downright foul.

I CHOOSE to listen to K-LOVE and I want to retain that freedom of choice. Please do not enact legislation that will strip me of my freedom of choice.

Thank you for your consideration.
